SCOPE OF WORK

Remuna NAC consist of 13 nos. of wards having population of 33982 (as per Census-2011) aims to enhance the health and well-being of its residents by implementing a comprehensive mosquito control program. Previously, the Municipality conducted periodic thermal fogging operations in the Remuna NAC area to eliminate adult mosquitoes, but these efforts proved ineffective in controlling the mosquito population. To address this challenge, the office has planned to adopt thermal fogging. This holistic approach will be implemented at appropriate frequencies, managed by an outsourced agency selected through a transparent bidding process. By integrating these methods, Remuna NAC aims to achieve more effective and sustainable mosquito control, ensuring a healthier environment for its citizens.

A tentative standard product specification of the Adulticides / Larvicides and Mixing Ratio is given hereunder in the Table. The bidder/firm shall require using National Vector Borne Disease Control Programme (NVBDCP), Govt of India approved larvicides / adulticides in the vector control programme and with prior approval of the office. The bidder/firm should also submit the booklets containing the detailed technical specification with coverage capacity of the chemicals he/they proposed to use in the operation.
